

## **WILLISTON NORTHAMPTON SCHOOL COMMUNITY HEALTH COMPACT**

Knowing that we are best when we work together, Williston calls upon students, faculty, and staff to commit to protecting the collective health and well-being of our community. As we navigate the COVID-19 crisis, each of us bears an obligation to comply with federal, state, and local health measures as adopted and implemented by the school. This Community Health Compact describes individual obligations for all members of our community. Please read it carefully, understanding that circumstances may change during the year, perhaps suddenly, and that new protocols and guidelines could be implemented. If students are unable to meet their responsibilities, it may be necessary for them to withdraw from campus and complete the year remotely. Recognizing that we are still living with the possibility that the virus could reach our campus, and that no school can be completely risk-free, we at Williston believe the following guidelines will help keep our community safe.

In signing the Williston Community Health Compact, I commit to the following:

- I agree to be tested for COVID-19 by Williston Health and Wellness Services upon arrival on campus and at other times, as warranted.
- I will participate in contact tracing, including consistently updating my location through Williston's Contact Tracing App.
- I will practice good personal hygiene, adhering to public health protocols, such as frequent hand washing, use of hand sanitizers, and the proper disinfection of community spaces and shared surfaces.
- I will follow guidelines for social distancing, maintaining a distance of six feet or more between myself and any other person.
- I commit to wearing a proper face covering in all shared community spaces, including classrooms, hallways in academic and residential buildings, residential and recreational common areas, campus pathways, and during meetings or gatherings with other students, faculty, or staff.
- I will comply with temperature checks and agree to screen myself daily for COVID-19 symptoms and report the results through our Contact Tracing mobile app or the school's daily health-check email system. If I am a day student, I will remain home if I am not feeling well. I will contact my primary care physician for further assessment and will need to be cleared by Williston Health and Wellness Service before returning to campus.

- If I test positive for COVID-19, or I learn that I have come into contact with someone who has tested positive, I will follow Williston's instructions, which may include relocation, isolation, or quarantine for a designated number of days.
- I agree to receive a seasonal flu vaccine and, should it become available, a COVID-19 vaccine.
- I will observe any restrictions imposed on travel beyond our extended campus boundaries, and accept that travel within these boundaries will be governed by the expectations of the Easthampton Board of Health and the Commonwealth of Massachusetts. I acknowledge that the first three weekends of the academic year will be closed and understand the possibility of additional closures.
- While traveling away from campus, should such a situation arise, I will continue to abide by Williston's social-distancing, facial covering, and other best-practices protocols. I understand that my parents or guardians are expected to support these guidelines when I am in their care.
- I will conduct myself with patience, kindness, and respect as the Williston community works to adjust to new health requirements, understanding that each of us may benefit from occasional reminders. I commit to giving and receiving such reminders in a spirit of cooperation.
