

WILLISTON RISK ASSESSMENT FORM

It is critically important to the safety of the school that we do not introduce COVID-19 to our campus prior to the start of school. We are relying on all students and parents to fully disclose any violations of these [“Safer-at-Home” Guidelines](#) within the last 72 hours. If you answer yes to any of these questions, you will be tested, but then must quarantine in your dorm room alone, in a hotel room with your family, or at home with your family until your test results are back, typically 24 hours. If your test result comes back positive, you may not stay on campus and must begin the trimester remotely until you can meet the criteria for a safe return.

Have you strictly followed the Safer-at-Home Guidelines listed below in the last 72 hours?

- Yes, I have
- No, I have not

Please explain:

During the Safer-at-Home period, all members of the community must:

- Stay at home except for essential errands such as going to work, the grocery store, and to attend to healthcare needs.
- Wear masks or face coverings when they cannot maintain six feet of social distancing in public
- Limit gatherings to household members only.
- Self-monitor for symptoms and contact primary care provider if anyone feels sick.
- Refrain from participating high risk activities, which include group sports, parties or events, restaurant dining, group gatherings of more than 10 people, public transportation, and travel out of state.
- Wash hands frequently and avoid touching surfaces in public spaces.
