To Members of the Easthampton Community,

The Williston Northampton School takes great pride in its commitment to the Easthampton community. As an educational institution and one of the largest employers in the City of Easthampton, Williston supports the city in numerous ways, including direct financial contributions, donations of goods and equipment, use of campus space and facilities, support of civic events and organizations, and donations of time by our faculty, staff, and students. In order to keep the community apprised, on an annual basis, the school presents this letter, which includes detailed information regarding the various ways in which Williston aids Easthampton and other local communities.

Like most nonprofit organizations, Williston needs to maintain a balanced and sustainable annual operating budget. Despite the challenges of the COVID-19 pandemic and the resulting budget pressures on the school, our administration and Board of Trustees remain committed to providing financial assistance to local groups and to making available the school's facilities to local organizations that can benefit from their use.

In the last few years, there have been significant construction projects at Williston to develop new residential space for students and faculty that are the result of almost twenty years of planning. The school has made a focused effort to utilize local sub-contractors and suppliers for these projects, whenever possible. Williston has paid over \$100,000 in fees and permits to the City for these construction projects. As part of this project, Williston paid for the replacement and upgrades to the City's water line between Park Street and Main Street, repaved a large section of Main Street, and replaced a number of concrete sidewalks as part of this work.

For the 2018-2019 school year, Williston served the educational needs of 417 high school students (grades 9-12) and 74 middle school students (grades 7-8) for a total of 491 students. The school provided jobs for 194 full-time employees and 82 part-time employees, including tutors, specialized music teachers, and coaches. With such an extensive operation, the economic impact on Easthampton and the surrounding area is significant. For example:

- ◆ In the 2018-19 fiscal year, Williston had a total payroll of approximately \$11,473,690. Of that amount, 49% (\$5,622,108) went to Easthampton residents.
- ◆ During the last fiscal year, Williston's regular operations purchased approximately \$1,402,187 in goods and services from businesses in the city of Easthampton and the town of Southampton.
- ◆ In 2018-19, 52 Williston high school and middle school students lived in Easthampton, Southampton, and Westhampton. That group received financial aid awards totaling \$1,618,587. By comparison, 7 students from families that reside on the Williston campus avail themselves of the public school system.
- ◆ The school paid approximately \$81,625 for water bills and sewer charges.
- ◆ Over the past year, Williston paid \$3,808 in fees and permits for regular projects and construction. As noted previously, with the extensive new construction, Williston paid fees and permits to the city in excess of \$100,000.

- ◆ Williston employees who reside on campus pay excise taxes to the City of Easthampton on approximately 94 vehicles.
- ◆ Over the years, Williston has made a concerted effort to bring groups to campus that will provide additional activity and commerce within the city of Easthampton. For instance, during the summer months, the school contracts with a number of athletic camps and academic programs, bringing approximately 2,000 campers, coaches, students and parents to Easthampton. The Williston Theatre is used by local theater groups, offering classes as well as performances open to the public.
- ◆ Families of students, Board of Trustees members, and other visitors to campus attend regular campus events which helps to support the local economy through their patronage of Easthampton businesses.
- ◆ The Williston Northampton Sammy Card is now accepted at numerous restaurants and stores in Easthampton, generating significant additional business. During the 2018-19 school year, Williston students spent an additional \$126,242 on the Sammy Card in local Easthampton restaurants. This does not count the other purchases made by students using a personal card or cash.
- ◆ Williston's Children's Center currently enrolls a total of 53 children; 27 are from Easthampton. The remaining 26 children are from Southampton, Northampton, Florence, Hatfield, Williamsburg, Huntington, Whately, Hatfield and Feeding Hills. Additionally:
  - The Children's Center accepts vouchers from the MA Department of Early Education and Care to make early childhood education more affordable. We currently have 3 families who use a voucher to pay for childcare.
  - We employ 13 educators – 4 are graduates of Easthampton High School and Hampshire Regional High School. We also currently employ one Easthampton High School student in a work study program.
  - Together with the families, the Center hosts a community day of service each year, in conjunction with the Easthampton city-wide clean-up day to clean a section of the bike path, though this will likely be suspended this year due to the COVID-19 pandemic.
  - We continue to help organize an early childhood teachers' cohort to support the needs of early childhood educators in Easthampton and the surrounding area.
  - The Director of the Children's Center is on the Preschool Enrichment Team steering committee and the Greenfield Community College Education Advisory Board. Both groups work to support the professional development of early childhood educators in Hampshire, Franklin, Berkshire and Hamden counties.
  - The Children's Center director is a part of the Western MA Director's Group—a group of Early Childhood Program Directors who meet monthly to work on advocacy, problem solving and collaboration for the field.

Williston's administration consistently strives to stay in contact with local groups to assess community needs and contribute time, services, facilities, and funds when appropriate. Here is a listing of the various forms of support provided by Williston to the local community:
