

# What do I do if I'm the close contact of someone who tests positive?

Are you fully vaccinated?

**NO**

I am not fully vaccinated

- Quarantine/stay at home for 5 days (the day of your last exposure is day 0)
- Test on or after day 5 with a rapid antigen or as part of weekly testing

If your test results are:

**NEGATIVE**

- Come out of quarantine after negative test
- Continue to mask at all times indoors or outdoors when social distancing is not possible through day 11

**POSITIVE**

- Isolate for 5 days (day 0 is the day you test positive) and follow the Positive Test Flow Chart.

**YES**

I am fully vaccinated

Do you have symptoms?

**YES**

- Quarantine/stay home, wear a mask, and contact Health & Wellness to discuss next steps

**NO**

- Mask around others for 10 days
- Test on day 5 (5 days after exposure) with a rapid antigen test or as part of weekly testing
- If you develop symptoms or test positive, follow guidelines for those situations.
- Eat grab-and-go meals on days 1 through 5.

## PLEASE NOTE:

- Individuals who have tested positive during the last 90 days will not be retested unless there are concerns about new infections.
- All policies are subject to change as the COVID situation evolves or based on individual circumstances. If you have any questions or concerns not addressed by this chart, please contact Health and Wellness Services.
