

March 2022

To Members of the Easthampton Community,

As was the case during the height of the COVID-19 pandemic, the outstanding collaboration between the Williston Northampton School and the City of Easthampton is evident in many ways. There are multiple examples of continued work and mutual support between Williston and the Mayor's Office, the Easthampton Police Department, Fire Department, Health Department, Building Department, and Planning Department, among others.

Williston takes its civic responsibilities very seriously, as one of the largest employers in the city. The school has focused its charitable endeavors, more than ever, to meet needs specifically in Easthampton. In order to keep the general community updated, the school presents this annual letter, which provides detailed information regarding the various ways Williston has supported and continues to support activities in Easthampton and other local communities in the past 12 months, as well as on an ongoing basis.

Like most nonprofit organizations, Williston needs to maintain a balanced and sustainable annual operating budget. Despite the unprecedented challenges of the past few years, our administration and Board of Trustees remain committed to offering financial assistance to local groups and to making the school's facilities available to local organizations whenever possible.

Significant building projects continue at Williston with the planning of a science facilities renovation and dining facilities renovation, to name two upcoming improvements. These projects help employ many local people and provide business to local vendors. Permitting and fees for these and other projects support the Easthampton Building Department.

For the 2020-21 school year, Williston served the educational needs of 389 high school students (grades 9-12) and 69 middle school students (grades 7-8) for a total of 458 students. The school provided jobs for 197 full-time employees and 78 part-time employees, including tutors, specialized music teachers, and coaches. With such an extensive operation, the economic impact on Easthampton and the surrounding area is significant. For example:

- ◆ In the 2020-21 fiscal year, Williston had a total payroll of approximately \$11,841,456. Of that amount, 60% (\$7,083,714) went to Easthampton residents.
- ◆ During the 2020-21 fiscal year, Williston's regular operations purchased approximately \$916,506 in goods and services from businesses in the City of Easthampton, and the towns of Southampton and Westhampton.
- ◆ In 2020-21, 60 Williston high school and middle school students were residents of Easthampton, Southampton, and Westhampton. That group received financial aid awards totaling \$1,638,070. By comparison, six students from families that reside on the Williston campus avail themselves of the public-school system.
- ◆ The school paid approximately \$131,764 for water bills and sewer charges.

- ◆ Williston's Children's Center currently enrolls a total of 45 children; 32 are from Easthampton. The remaining 13 children are from Southampton, Westhampton, Northampton, Florence, Hatfield, Williamsburg, Huntington, Whately, and Russell. Additionally:
