

VISUAL ARTS CONCENTRATION

The Visual Arts Concentration recognizes and supports the passions and efforts of students who are deeply involved with the Visual Arts at Williston and who are engaged with the arts beyond our academic or extra-curricular requirements. It is designed to help you to successfully prepare and plan for electing for extra arts activities. However, we will grant no waivers for any required Williston program (academic or afternoon program) to enable you to complete the concentration. Students who qualify may be eligible for an increase in the Arts Intensive afternoon program trimesters usually allowed.

*Students interested in a concentration must meet with the VPA Department Chair to get started.
